

SVS300

Single-Port Very High Output Power

Delivering up to 500 amps, the PosiCharge SVS300 is a heavy duty charger designed for the toughest applications. The SVS300 incorporates efficient IGBT electronics to safely and efficiently charge vehicles in demanding operations like automotive manufacturing, beverage distribution, and carpet manufacturing.

A cost-effective stand-alone solution that combines exceptional output capability with compact size, the SVS300 can be mounted virtually anywhere, keeping operations performing with maximum productivity. And like all PosiCharge chargers, the SVS300 works with a broad range of battery voltages and has the same data management and on-board intelligence.
